OBJECTIVE

Aspiring Full Stack Developer with a strong foundation in front-end and back-end technologies. Eager to build scalable, user-friendly applications while contributing to innovative projects and enhancing my skills.

EDUCATION

A.C. Patil College of Engineering Kharghar, Navi Mumbai, Maharashtra	2021 - 2025
Bachelor of Computer Engineering, Mumbai University	CGPA: 8.20

SKILLS

Programming Language	Java, Javascript
Front-End	HTML5, CSS3, React, Tailwind, Bootstrap
Back-End	Node.js, Express.js
Database/Tools	MongoDB, SQL, Git, Docker

EXPERIENCE

Full Stack Developer Intern Edureka	Sep 2024 - Nov 2024
---	---------------------

- Successfully contributed to the organization's goals by delivering high-quality work during the internship.
- Expertise in building MERN Stack applications using MongoDB, Express.js, React.js, and Node.js.
- Experienced in developing RESTful APIs and server-side logic using Node.js and Express.js.
- Proficient in designing and managing NoSQL databases using MongoDB.

Frontend Software Engineering Job Simulation Forge	Sep 2024
--	----------

- Developed a dynamic Backpack Web App using React, demonstrating skills in making user-friendly interfaces.
- Improved knowledge in React, JavaScript, and state management with a focus on writing clean code.
- Completed real-world tasks, similar to what a Front-End Software Engineer would do, to enhance problem-solving and coding skills.

PROJECTS

Food Restaurant App ([Try it here](#))

- Developed a MERN stack food ordering application with features like restaurant listings, menu browsing, and order management.
- Integrated Razorpay for secure and seamless payment processing.
- Implemented user authentication and role-based access control for customers.
- Created RESTful APIs for efficient data handling and interaction between the client and server.

MovieMania ([Try it here](#))

- Designed and developed an interactive movie database application using React.js, Redux, and Material UI.
- Movie Search Details: Users can search for movies, view detailed information, and explore cast profiles.
- Ratings Categories: Allows sorting of movies based on genres or categories and displays user ratings.
- Users can watch the official trailer of a movie directly within the app for a quick preview. It also displays the movie's IMDB rating, helping users assess its popularity and reviews.
